\*Please see the next page on fundraising, scholarships, deposits and financial hardship.

### **Fundraising**

Over next few months there will be multiple opportunities for fundraising. Individual “accounts” will be set up for each student who fundraises. The money earned from fundraising can be used exclusively for youth ministry events, trips and programming. Any money that is earned and not used may be requested to be carried over to next year. If a young person graduates from high school with money still in their account they can choose to place the money in the account of a sibling or have it placed in a general scholarship fund.

### **Scholarships**

Partial scholarships may be offered for different events and trips. Should you be in need of a scholarship please contact one of the youth ministry staff members to discuss what scholarships may be available.

### **Deposits**

Deposits will be required for every trip. Due to the upfront costs that the parish incurs for registrations and securing transportation all deposits are considered non-refundable.

### **Financial Hardship**

No young person will ever be denied the opportunity to participate in a youth ministry trip or event due to finances. If you are unable to afford a trip or event please contact one of the youth ministry staff members.
